Name	Role
Harshartan Suleki	Speaker

Discussion

Introduction to Artificial Intelligence (status_update)

Speaker: Harshartan Suleki

Artificial intelligence significantly impacts society by boosting productivity, enhancing healthcare through advanced diagnostics, and has a potential economic impact of \$4.4 trillion.

Progress: 20% | Risk: medium

- Boosting productivity
- Enhancing healthcare
- Economic impact of \$4.4 trillion

Addressing the Challenges of AI (problem_solving)

Speaker: Harshartan Suleki

The discussion highlights the major changes that AI presents, including an increase in inequality and the need for a skilled workforce.

Progress: 40% | Risk: high

- Increase in inequality
- Need for a skilled workforce

Embracing the Future of AI (decision)

Speaker: Harshartan Suleki

The speaker emphasizes the need to embrace the future of AI and its potential benefits, while also addressing its challenges.

Progress: 60% | Risk: medium

- Embracing the future of AI
- Addressing the challenges of AI

Key Decisions

- Embracing the future of AI
- Addressing the challenges of AI
- Investing in education and training to develop a skilled workforce

Action Items

Owner	Task	Priority
Harshartan Suleki	Research the impact of AI on various industries	high
Harshartan Suleki	Develop a plan to address the challenges of AI	medium

Risks

- Increase in inequality (Impact: high) - Investing in education and training to develop a skilled workforce
- Need for a skilled workforce (Impact: high) - Developing a comprehensive education and training program

Speakers Timeline

Speaker A (63.78s - 137.67s)

Hello Chatbot. I am Harshartan Suleki As a speaker artificial as we are discussing about the impact of artificial intelligence. Artificial intelligence significantly impacts society by boosting productivity enhancing health care through advanced diagnostics and Automatic with potential 4.4 trillion....
